We all want a respectful, supportive and productive classroom environment this semester. If we understand and agree on our respective roles, we will be more prepared to fulfill all our expectations.

Use your personal experiences as a student and information from the course policy for your math course in developing the two lists below. We will use the information from our individual lists to create an agreement which clearly indicates instructor's and students' expectations for one another.

My Instructor's Expectations of Me

My Expectations of My Instructor

AGREEMENT ON EXPECTATIONS
