

Consider the list of possible classroom activities and learning strategies.
Underline the learning styles which you think are compatible with each learning method.

Reading Writing Listening Speaking Visualizing Manipulating

STRATEGY	LEARNING STYLE
discuss problem with a classmate	R W L S V M
draw diagrams to illustrate formulas	R W L S V M
preview textbook material	R W L S V M
make an audio tape of class	R W L S V M
use objects or motions to model problems	R W L S V M
ask/answer a question in class	R W L S V M
use pictures/sketches to show relationships	R W L S V M
read information from board or textbook	R W L S V M
use number line to show number operations	R W L S V M
develop a personal notetaking method	R W L S V M
use manipulatives to demonstrate number concepts	R W L S V M
explain your solution to a classmate	R W L S V M

1. What are your two best learning styles?

Which two strategies from the list above do you think will be helpful to you?

2. What is your weakest learning style?

Which strategy from the list could you practice to strengthen your weakest learning style?
