I think this class was effective. I believe she was a good teacher and helpful when a question is asked. I learned ~~most~~ more ways of writing that would definitely help me in the future. I wished we had more things to write about to help and improve my writing. I wished there were more interesting topics as well. But overall, the class was not bad. I did not like reading my essay in front of the class because it was my personal opinion. So she was a good teacher and helped me a lot.
