

Multiplication is EGG-CELLENT!

Rules: Close eyes and shake egg carton. Multiply the two numbers together where the “eggs” land. If one lands in blue (11s, 12s), score 20 pts if answered correctly. If one lands in orange (6s, 7s, 8s, 9s), score 10 pts, and score 5 pts for all others. If it lands in two different colors, score the highest value (blue or orange) if answered correctly. Score **ONLY** 1 point if you don’t know the answer and have to look it up. The winner is the one with the highest scores after 10 shakes.
