

Final Individual Feedback on Group Work

Name Leigh-Ann Ronaldson

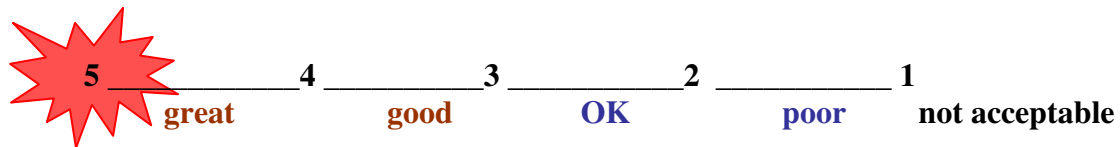

Group: 2- Demo/modeling

CL Group Project Name: Demo/Modeling using direct instruction

What I did to help my group's success during this project:

I helped by keeping in touch, created the popsicle sticks with the students names on them and I also helped to keep the group organized. I contributed ideas to the group on how we should present and what we should do. I was also on time when meeting together.

My participation was:

My personal contributions to the group project:

I added all my ideas, I was on time, stayed in touch with them over the weekend and was very helpful during the group meeting times.

The Rate of my group members' participation:

My ideas, comments, suggestions for our collaborative learning group work:

Next time it would recommend that we got our project a couple days in advance. I would have also better prepared myself and talked to the teacher more because I was very unclear about what the project was addressing.
